Janis, neznana biografija - gledališka predstava, samostojni avtorski projekt

"JANIS, THE UNKN'OWN BIOGRAPHY"

O vsebini

Izhodišče za gledališko raziskovanje je rock'n roll ikona iz 70-tih Janis Joplin, točneje njena biografija, ki pa jo mlada generacija, tudi v skladu s svojo zgodovinsko distanco, raziskuje in razvija. Kot je razbrati iz podnaslova nam mladi razkrijejo, vse tisto kar biografi niso zabeležili, pa se je po njihovem mnenju dogajalo ali bi se moralo dogoditi. Skratka: razvijejo svojo teorijo, ki govori večplastno: o Janis, o zgodovinskih lažeh, o nas in seveda njih samih.

Dolžina predstave: 45 minut

Short summary:

The starting point for the theatrical exploration was the rock 'n' roll icon of the 70s, Janis Joplin. The basis for the exploration is the singers biography, which is being studied and developed by the young generation according to its historical distance. As the subtitle suggests, the young reveal everything that in their opinion had been going on or had supposed to happen but was not noted by the biographers. In short: they develop their own theory that speaks on several levels: about Janis, about the historical lies, about us and of course themselves.
